EDUCATION

Global Knowledge Academy

2015 - 2017

Associate Degree in Computer Systems Servicing

AMA Computer College

2019 – Undergraduate

Bachelor of Science in Computer Science major at System and Software Engineering

WORK EXPERIENCE

Global Knowledge Academy (GKA) – Computer System Servicing [Intern]

September 2016 – December 2016

- Diagnosed networking issues by analyzing information and providing effective solutions, improving overall system connectivity.
- Demonstrated the ability to work both independently and collaboratively in a team environment, contributing to successful project outcomes.
- Conducted minor equipment repairs and coordinated additional servicing needs, ensuring the functionality and longevity of systems.
- Addressed user requests by troubleshooting problems and assisting in the development of practical solutions to enhance user experience.
- Provided support for PC hardware, desktop operating systems, and application software, maintaining smooth and efficient system operations.

City Government of Angeles (ACTDO) - Data Analysis [Office Worker II]

October 2017 – June 2020

- Enhanced communication skills by regularly interacting with team members, identifying discrepancies in paperwork, and ensuring timely resolution.
- Utilized critical thinking to systematically analyze problems, evaluate potential solutions, and make informed decisions.
- Developed a strong foundation in data entry, analysis, and reporting, leading to accurate and insightful data-driven conclusions.
- Improved time management skills, consistently completing tasks within deadlines while maintaining high-quality work standards.
- Applied advanced time management strategies to effectively meet tight deadlines and prioritize workload efficiently.

City Government of Angeles (ACTDO) - System Developer [Office Worker V]

July 2020 – December 2022

- Streamlined the research, design, and implementation of software programs to better align with organizational objectives.
- Enhanced software reliability and performance by developing and applying robust quality assurance procedures.
- Improved system efficiency through targeted modifications of existing programs, addressing specific functional gaps.
- Optimized code efficiency to enhance system performance, leading to reduced resource usage and faster processing times.
- Facilitated cross-functional collaboration among developers, UX designers, and business analysts, resulting in comprehensive and user-centric software solutions.

All information in this resume is true and correct to the best of my knowledge and belief.
